The Oeko-Institut at a glance: facts and figures

The Oeko-Institut is one of Europe's leading independent research and consultancy organisations working for a sustainable future. Its scientists conduct their research and consultancy independently and in an open-ended manner and are not bound by instructions from third parties on the substance of their work.

Overview of research topics

Protecting the environment, safeguarding sustainability

The aim of our work is to contribute to the preservation of the environment and natural resources, and to safeguard, for present and future generations, the vital support systems on which all human life depends. We apply our ideas, our scientific expertise and our consultancy skills to initiate and shape the necessary transformations in politics and society, with a focus on solutions.

Mission Statement

Our organisation

The Oeko-Institut comprises two operational sections: a non-profit association (Oeko-Institut e.V.) and a limited company (Oeko-Institut Consult GmbH). The limited company is a wholly owned subsidiary of the association. Our consultancy services for policy-makers and the business sector as well as the Oeko-Institut's international project activities are clustered under the Oeko-Institut Consult GmbH. The non-profit association, Oeko-Institut e.V., will focus on the research projects in our portfolio.

The Oeko-Institut e.V. hat around 2,000 members, including more than 20 local authorities. The members elect the Committee at the annual Members' Meeting. Each Committee member serves on an honorary basis for a term of two years.

The Executive Board of the Oeko-Institut e.V. has two members, Anke Herold and André Nelius, who lead, organise and oversee the Institute's operations on behalf of the Committee. Christof Timpe is the CEO of the Oeko-Institut Consult GmbH limited company.

Organisation

Our clients

Since its establishment, the Oeko-Institut has worked on an inter- and transdisciplinary basis with partners from industry, academia and civil society. With more than 150 commissioning parties, its main clients include the German ministries at the federal and regional (*Land*) level, local authorities, businesses and the European Union. The Institute also takes on commissions from NGOs and environmental organisations. We present our ideas and insights independently of the positions held by political and civil society organisations and avoid potential conflicts of interest.

Projects and turnover

In 2024, the Oeko-Institut's experts worked on almost 500 projects commissioned by or with financial contributions from more than 150 organisations. Annual turnover amounted to approximately 23.4 million euros in 2024 and 22.5 million euros in 2023 (forecast). From 2020 to 2024, annual turnover averaged 20.4 million euros.

Scientific excellence, lived diversity

Robust scientific analyses and recommendations are fundamental to our research and consultancy. We build on the outstanding qualifications and commitment of our staff in order to guarantee excellence in our work. At the same time, we are committed to gender equality and diversity. We are convinced that lived diversity and the appreciation of this diversity impact positively on the Oeko-Institut and the achievement of our goals in society.

Diversity Strategy and Gender Equality Plan

Team and organisation

In 2024, some 215 staff at the Oeko-Institut contributed to the success of research projects, studies and consultancy contracts. Of this figure, around 150 scientists worked on thematic issues in five research divisions and approximately 65 staff working for Central Services ensured that all the Institute's internal procedures ran smoothly.
